

RICKHOUSE BLOCK

A RICKHOUSE FOR EVERY WINNER

This piece has history before we even do anything. Rickhouses store Bourbon barrels that age the pride of Kentucky and this Red Oak wood needs replaced at some point. That point has arrived and we have taken it and turned it into an incredible NEW trophy. Display prominently in any room with the knowledge that this trophy has unique history. Which Rickhouses does our wood come out of? Well Jim Beam of course. Ready? Let's get started.

Your LeaderBoard

THE DETAILS

Our trophies are unique in many aspects. First off, we hand-craft it to your desired selections, that's right we want to give you control of how your trophy is going to look. Simply review the options below, select what you like and send us a list of details. We want you to be as proud presenting the trophy, as the winners

are in receiving it. After all, since you selected it, you really should be in charge of designing. We also understand if you say "Let the Creative Director do his thing" and he will deliver a trophy unlike anything your club has presented before. Let's get started from the base up.

Price: \$250 (per unit)

MATERIAL DISCLAIMER

The digital images we use are computer renderings. There can be a slight difference between your finished product and the images here especially in the wood detail since grain varies. We make every effort to match the look of the your digital design, but understanding that barrels are rolled and stored in a natural environment, but this doesn't mean all barrels will look the same at the end of their life cycle. We do our best to ensure each barrel exudes their natural character. The artistic rusting of the metal can also have variations giving our trophies true character.

Wood and Stain

Your LeaderBoard cannot guarantee wood and stain colors due to the variances in the wood's natural color, grain, etc. and there is no way to assure the exact color of wood. Sample colors or grain may also vary as the wood may be taken from various barns, which factors involve weathering, sun or shade, etc.

The photos on our PDF materials and web site, are provided to assist you in making a choice of wood and stain, and the various grades that a given wood is offered.

- Color in the photo may vary from the actual wood due to:
 - The translation and reproduction limitations of photography
 - The limitations of viewing photos on individual monitor with variable color & resolution
- Grain and character variation will be, greater than that shown in the photos.
- The batch of wood from which these photos were taken may vary from your product we supplied. The reasons for this variation between batches includes:
 - Wood is a product of nature, and as such, no two pieces are alike, while the same wood growing in different locales can vary greatly even though it is the exact same species.

Metal

Being man made the metal is consistent in thickness and weight however the artistic treatment to achieve our various appearances and finishes always varies.
